

Guillemin coupling was also referred to Symmetrical half coupling, or French coupling. The symmetrical design ensures the same ends on both ends of the hose, and the collar prevents hose blow-off. It is widely used in France and in Belgium to couple fire hoses.

Luxe's Guillemin couplings are available with serrated / helical hoes tail, male / female threads, or cap / dust plug. Materials are from forged Brass, Stainless steel, Aluminum and Polypropylene. Sizes from DN20~DN150.

Applications

The Guillemin couplings are widely used in irrigation, chemicals, petroleum products, powders and granulates, liquid fertilizers.

Material

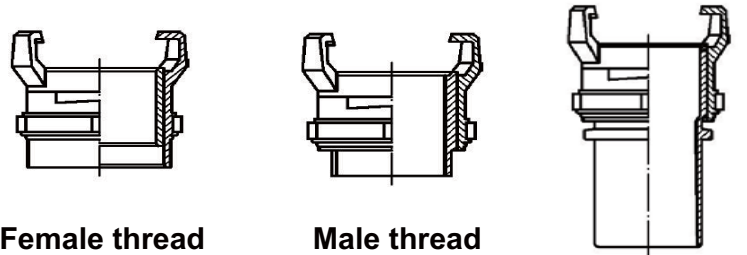

1. Stainless steel AISI316/1.4408 by investment casting
2. Brass CW614N by forging
3. Aluminium by gravity casting
4. Polypropylene

Main gaskets

- Aluminium alloy: NBR-seal oil and petrol fluids resistant, white.
- Brass: NBR, white
- Stainless steel: Hypalon
- We can also supply EPDM, Viton and PTFE on the request.

Features

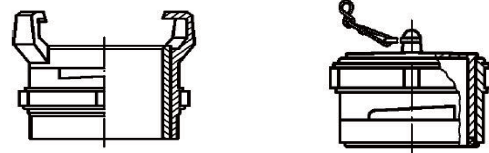

1. According to standard NF E 29572
2. Pipe thread according to EN ISO 228-1

Female thread

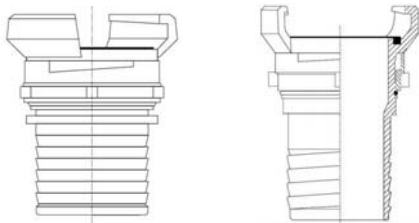

Male thread
